## Work Experience

### Full-Stack Web Developer

Naval Systems Inc  
June 2021 - Current

### President

Viral Web Development  
2020 - Current

Responsible for creating the new UI/Branding for the company. Lead react developer and front-end expert on the development team.

### Web Developer

Bayside Community Church  
2021 - Current

Volunteer on the web development team

### Business Consultant

Fiserv | 2020 - 2021

I deliver F2F & E-commerce business solutions, enabling businesses to accept payments anytime and anywhere. I negotiate rates, advise on e-commerce apps and integrations to grow their business. I cover the Tampa DMA.

### Regional Account Executive

Comcast Spotlight/Spectrum Reach  
2019 - 2020

Managed client's advertising budget. Reviewed their Google Analytics to analyze campaign effectiveness and business growth. Based on the data, I created an all-screen video campaign placing TV spots throughout all top networks and websites.

### Regional Business Consultant

TriNet | 2017-2019

Engaged with the C-level suite to help contain costs, simplify administration and minimize employer-related risks by moving to a consolidated HR model. I was making businesses attract and retain top talent while scale responsibly to bring an idea to market.

## About Me

I'm a full-stack web developer for Naval Systems Inc. We focus on high-end clearance projects for the Department of Defense, Navy, Air Force, Missile Defense Agency, and DASA DE&C. I transitioned into web development from a high-skilled B2B sales background in e-commerce, payment processing, and business banking.

## Skills & Expertise

### Soft Skills

Leadership  
Self-Starter  
Communicator

### Technical Skills

HTML	React	Github	Figma
CSS/SASS	Node.js	Mongo DB	Material UI
Javascript	Next.js	Postman	Styled Components

## My Projects

All landing pages are built from scratch. I've designed in Figma, pixel-perfect replication, written a responsive design, clean code with BEM formatting for easier collaboration with the team, complex relative/absolute positioning with flexbox and grid layouts to create/replicate designs, and used javascript interactivity and animations.
